

## SWPPP Notification

Please be advised that the California State Water Resources Control Board has adopted the General Permit (General Permit for Storm Water Discharges Associated with Construction Activity (CAS000002)). The goal of these permits is to prevent the discharge of pollutants associated with construction activity from entering the storm drain system, ground & surface waters.

Cable & Kilpatrick Development, Inc has developed a Storm Water Pollution Prevention Plan (SWPPP) in order to implement the requirements of the Permits.

As a subcontractor, you are required to comply with the SWPPP and the Permits for any work that you perform on site. Any person or group who violates any condition of the Permits may be subject to substantial penalties in accordance with state and federal law. You are encouraged to advise each of your employees working on this project
